

# Regional Transportation Alliance

## THE BUSINESS COALITION ADVANCING TRANSPORTATION SOLUTIONS

Help your employees  
**LOSE WAIT**

We all want faster, more reliable commutes for our employees, but transportation projects don't just happen. They can be derailed due to political and funding threats that individual firms can't resolve.

The RTA provides businesses across the Triangle with the sustained focus, effective strategy, and powerful advocacy needed to *achieve results in a way no single company or agency can.*

Current priorities include accelerating 540, passing the Wake Transit referendum, strengthening RDU air service, and relieving freeway congestion.

Join the RTA to maximize your impact, strengthen the business community's voice on transportation, and keep your employees and our economy moving.
