

Regional Transportation Alliance

Business Leadership

JOIN THE BUSINESS COALITION ADVANCING TRANSPORTATION SOLUTIONS

Help your employees
LOSE WAIT

We all want faster, more reliable commutes for our employees, but transportation projects don't just happen. They can be derailed due to political and funding threats that individual firms can't resolve.

The RTA provides businesses with the sustained focus, effective strategy, and powerful advocacy needed to *achieve results in a way no single company or agency can.*

Current priorities include accelerating 540, enhancing regional transit, strengthening RDU air service, and relieving freeway congestion.
